BALLISTIC HELMET PASGT

The PASGT helmet is designed to combat threats ranging from guns to splinters, this helmet features a large protective field for maximum coverage and safety. It is one of the most established helmet types in the world and is now widely used and trusted by professionals in the field. This helmet is made of Aramid material, a synthetic material known for its strength, heat resistant and non-and durability. This kind of helmet is available in a variety of sizes to suit users of all sizes. For example: military, police, SWAT agencies, national security agencies, border and customs protection or other agencies . We can also do OEM/ODM, such as adding rails to carrying communication equipment and other accessories to carry more tactical gear. Exchange the ordinary liner to the newest breathable memory buffer cushion system or MICH 7 pads .

BALLISTIC HELMET ACH FULL-CUT

The Fast helmet is widely recognized as one of the most effective and reliable helmet types against gun threats in the world. This helmet is made of Aramid material, a synthetic material known for its strength, heat resistant and non-and durability. The Fast helmet is packed with features designed to enhance comfort and functionality. It includes an adjustable dial fit system to provide a customizable and secure fit, as well as a removable moisture-wicking lining for maximum comfort. One of the key benefits of the Fast helmet is its ease of use. The design allows for quick and easy donning and doffing, making it an ideal choice for a wide range of agencies and applications, including military, police, SWAT, border and customs protection, and national security agencies. The helmet is also equipped with NVG mounts, shroud, and rails to allow for the attachment of communication equipment and other accessories, making it a versatile and flexible choice for tactical operations.
